ADHD & Learning Disorder Conference

For Parents and Teachers

Presented by the directors of Capital Psychology Clinic and Lab Learning Clinic

Across the evening we will present information on the features and symptoms of ADHD and different learning disorders, how these symptoms may be impacting your child and how we treat and support children with these disorders in the home and school environments. Disorders and difficulties covered include ADHD, Dyslexia, Executive Functioning and Working Memory difficulties.

- Up to date research and information
- How to help your child at home
- How teachers can help children at school
- Handouts with specific support strategies
- Information of support services in Canberra

Registration: call Capital Psychology Clinic on **02 6156 4780** to secure your seats. (payment cannot be accepted on the night)
